Important notes to the online preregistration in a day care center in Baden-Baden

Use our new, family-friendly offer!

all ages in kita (childcare) and kindertagespflege (childminder)

How to get to the online entry?

- internet: www.kita.baden-baden.de
- follow the link to the central kindergarten preregistration in Baden-Baden
- subscribe the link to the central reservation
- you will receive an email (maybe check your spam-folder)
- with your email address and password, you will be guided to the preregistration

How it works:

- enter the required information for you and your child
- select one, two or three day-care centers , where you want to set your child to the waiting list
- you can also choose a childminder
- indicate whether your reservation should be provided to all nurseries, if your child can not be awarded
- save the questionnaire so that your preregistration is registered
- the choosen day-care centers now receive a system message

Please note:

- every child can be scheduled only once
- the preregistration is possible from the child's birth on
- daycare centers themselves do not accept reservations

You need further information about child care in Baden-Baden?

How do you get information, if your child will get a childcare place?

- the child care centers decide on the reception
- you will get a confirmation, that you have to confirm
- you will be invited to register
- if there is no childcare-place available, you will get an offer of day care in another location or by a childminder
- a place is called „awarded“, when you have signed the “childcare-contract”

How to award childcare-places?

- siblings are considered, if possible
- social factors can cause preferences

How to change your data?

You can easily update your data, if your family or professional situation changes, if you need another time of childcare or another date of reception is required.

Will the data be deleted?

Your reservation is valid until your child is taken in a day care center or child day care. Then the name of your child will be deleted from all the waiting lists. Your data remains accessible even after logging into the system, as long as the care needs may be possible for your child, for example when you switch to another day care or out of the “krippe” in the “kindergarten”. Latest at the start of elementary school, the data will be deleted. At your request, the data is deleted, of course at any time.

You have no possibility to use the internet?

Please contact the the Fachgebiet Bildung und Soziales, Infodienst Kita (-> „please contact us!“),. Of course, our staff will help you with the preregistration.
